

EC-Norm for the safeguarding of toys

Dear customer!

The legislator provides that toys have to meet the EC-norm and have to be marked with the symbol "CE". Our articles are mainly handicraft materials (basic raw materials) which have not to be marked and often do not meet the strict regulations. (e.g. danger by swallowing smaller items like wooden pearls etc.)

Please draw the parents' and educators' attention to this problem. Small children less than 36 months should, in principle, not be given products which have not been examined nor marked, or products produced from these products. Other children less than 14 years should do handicraft work under supervision and with all usual precautionary measures. (knife, fork, scissors, light...).

We wish you some nice hours when doing handicraft work and having fun with the things you made.

For our current business conditions please see the valid list of prices.

Please note: The number in brackets is the minimum order quantity. Please only order by multiplying e.g. (6) = 6, 12, 18 etc.

The very special knead-cement

opens up completely new dimensions for the cement design. It is ready-to-use and can be easily mixed with water. Then it is easy to be modeled and shaped as well as the dough. Thus creative deco-elements can be created that cannot be molded with casting cement. After hardening, the knead-cement is rock-hard and weatherproof – without oven.

Moulding – Forming
Shaping

Infinite creative possibilities!

The forms are to be used individually, but can also be combined with one another. Before casting the forms should be coated with the household cooking oil. The highly transparent stable PET is durable and brings constantly new creative ideas in the right shape. Creative-cement or raysin, water and the shapes of your choice - the decorative component parts are ready.

Shaping

Exclusiv
by Rayher

Durable full forms made of latex, ideal for moulding creative-cement and rasyin.
For perpetual re-use.
Application:
Hang up the mould in a suitable opening of the holder or of the glass. Pour the casting compound, shake it gently until no more air bubbles appear on the surface.
Before demoulding, allow the casting compound to dry and harden.
Before painting and decorating, allow the figure to dry thoroughly.

Everything may look like cement!

The cement paste is troweled, smoothed and straightened after drying. For the characteristic cement look, first the dark glaze and then the light glaze should be wiped onto the object with a little sponge.

- water-based
- for absorbent and non-absorbent surfaces, e.g. wood, glass, porcelain, terracotta, papier-mâché, styrofoam, etc.
- spreading, stenciling, dabbing, filling - everything is possible.
- shockproof
- weatherproof

Content:

The Must-Have of this season!

The high quality jewellery cement moulded in graphical forms becomes the must-have of the season.

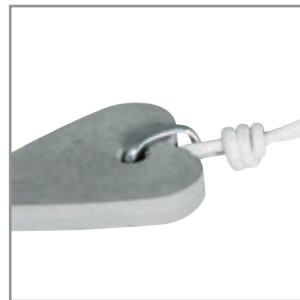

Deco metal, noble crystals and accessories create this perfect high-grade look.

Every piece is unique - definitely not of the rack.

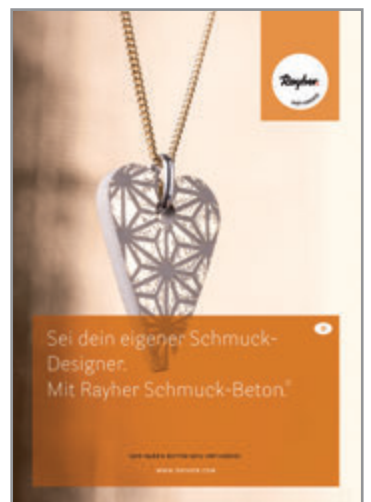

The casting moulds for jewellery are extra form stable, extra flexible, and they have an integrated extra hole to hang up the ready object!

Ring wide
12x7x2mm, tab-bag 8pcs.
platinum

- extra long oval shaped ring specifically designed for jewellery-cement casting moulds
- the ring made of aluminium is long enough to thread even wider ribbons as for pendants, so the jewellery pendant always fits perfectly
- the width of 2 mm brings out specific matt finish of the aluminium and fits brilliantly to the cement-look

Deco-metal flakes
tab-box 1g
copper

Deco metal is a extremely thin impact foil in sheets or flakes and refines various objects in the twinkling of an eye. Apply the application milk on the surface and let it dry. Place the deco metal flakes in small or big pieces and press them on with a brush. Surplus rests can be wiped away carefully with a brush or a dry cloth. Afterwards coat the art object with the deco metal protective varnish for a special protection.

How to use:
- Apply the adhesive milk and allow to dry.
- Put on deco-metal in tiny or big pieces and press it with a brush onto the object.
- Wipe off the rests with a brush or a soft cloth.
- Air well.
- Now you can polish the object with a soft cloth, eventually apply some protective varnish.

37 063 000 (5)
Set of brushes
Deco-metal, FSC 100%
assorted, tab-bag 3pc

1 of each synthetic brush round size 1 and flat sizes 6,14. High quality synthetic brushes. Especially suitable for deco metal, for applying the adhesive milk, for the application of the adhesive milk as well as for the protective varnish. For fine lines and also plain areas. Good form stability and colour storage capacity.

Cork – the basic material!

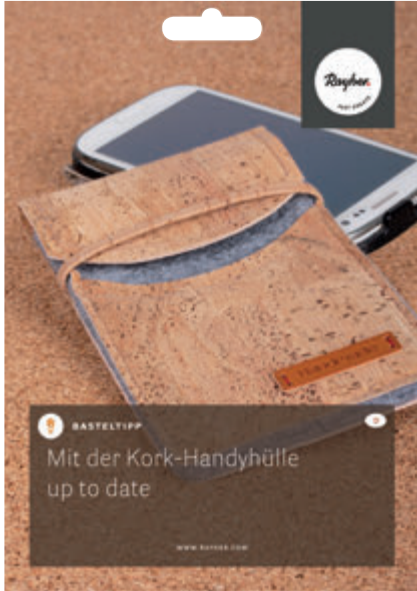

Natural and sustainable materials are the new trend in living and fashion. In the front of it: Cork!

What makes cork special?

Cork feels good, it's soft and smooth at once. It has a very special touch. Cork is a natural product, it's free of chemistry and synthetics

Cork is water- and dirt-repellent, can be recycled and is bio-degradable.

Cork – the perfect material for creative decorating, practical aids or accessories!

Cork fabric is a solid material, simlous to leather and available in two thicknesses. The surface is coated with thin, real cork. The backside of the cork fabric 0,5mm is coated with tissue, the backside of the 0,8mm cork is coated with PU-foam and tissue mix. Cork fabric offers several possibilities to work with it:
 - Cutting, sewing, glueing, punching, perforating, painting, labelling etc.

Care insatructions for cork fabric:

- wipe away the dirt with a dump fabric
- iron with an ironing cloth at low temperatur
- do not bleach
- do not use tumble dryer
- no chemical cleaning
- do not wash

NEW – Floristic balls with an upward shifted cut-out!

Considering that the floristic balls with a vertical cut do not get filled well, we have developed 2-part balls with an upward shifted cut-out. That means better fillability and also significantly bigger capacity to be filled with gravel, sand, artificial snow or some other similar materials.

A traditional technique is rediscovered and replaced by newer forms, materials and applications with a contemporary touch.

The material is enough for 4 sets of baskets. The basket's length approx.85 cm, the bowl of 14cm ø.The set contains everything to prepare four hanging baskets in beige/blue shades.

Content:

Cotton yarn, wooden beads, paper stalk, moulding powder Raysin 200 for the bowl, 2-part plastic ball (as a form-giving shape for the bowl), the instructions.

A traditional technique is rediscovered and replaced by newer forms, materials and applications with a contemporary touch.

The material is enough for 2 sets of baskets. The basket's length approx.100 cm, the bowl of 18cm ø.The set contains everything to prepare two hanging baskets in beige/yellow shades.

Content:

Jute, wooden and glass beads, paper stalk, moulding powder Raysin 200 for the bowl, 2-part plastic ball (as a form-giving shape for the bowl), the instructions.

Dreamcatcher jewellery

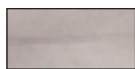

The basis for this jewellery is a traditional indian faith, that the dreamcatchers separate the good dreams from the bad and change the good dreams into positive energy. So our jewellery is the best guide through the day.

FARBE PEINTURE COLOUR

Rayher.

Colours and accessories

Many have good colours – only Rayher has the

We at Rayher only cooperate with renowned colour developers and producers. Our in-house colour experts make their selection depending on the users. As such, they are made for the matching partners and so as to ensure that the ideal solution is provided. Independent laboratories inspect the quality because only the best colours are allowed to bear our name. Rayher.

What distinguishes Rayher from other renowned colour providers?

We at Rayher not only offer you colours in absolute top quality. We also offer you a number of additional benefits:

May we offer you a little bit less? ...

- ⊕ A streamlined colour assortment, which is aligned to optimally utilise space and increase sales.
- ⊕ We only have those colours that are really relevant
- ⊕ We develop sales-boosting colour trends such as, e.g. our Chalky Finish chalk colour
- ⊕ More sales per m²

Our professionals only include the relevant colour assortments in our programme and, on the foundation of reliable sales and market research data, the colour that is desired by the end customers is determined. In so doing, a space-optimised assortment is created and this, in turn, ensures more sales per m².

In addition to this, our trend scouts worldwide keep an eye out for the latest best-sellers. We do this to ensure we are the first to offer you these in future, such as, e.g. Chalky Finish.

In a nutshell: More sales per m².

Or, would you rather prefer a little bit more? ...

- ⊕ More than 22,000 items revolving around handicrafts and being creative
- ⊕ Quality and safety of the leading brand in the hobby and crafts sector
- ⊕ Idea generator and trend developer for the entire sector, such as, e.g. creative cement, jewellery cement and cork
- ⊕ Top service and consultation

Rayher – the hobby specialist that offers a full-service, carefree package for realising all your customers' ideas:

- base materials such as glass, wood, paper, papier-mâché or cement
- everything that is needed for embellishing, decorating and creating – as you please
- and ALWAYS the matching colour!

All of this is offered in the well-known, high-grade Rayher quality with expert personal consultation, a high degree of product availability and fast delivery.

In a nutshell: everything from a single source.

Our motivation... what is at the centre of all our activities.

The idea is in the head, the plan is on paper and the vision is in the heart – now the only thing lacking is the matching favourite colour. Our focus is on what is essential: the ideas of your customers!

Because your customers have the idea – we have the right colour ⊕ everything else!

And, together with your expert consultation, great service and attractive shop design, we ensure satisfied consumers. Your cash register will also be happy about this.

An overview of the Rayher colour assortment

A weatherproof paint for the sky-blue bird villa in the garden, an erasable pen for a message of affection on the bathroom mirror, a new “special effect” for the boring shoe cabinet, or nobly painted on beads for invitation cards inviting to a princess party ...

With us, the users have the choice – but without this causing stress!

AT A FIRST GLANCE

- communication without words
- it is immediately recognisable what the issue is about
- ensures a uniform appearance of the different colour groups

CLEAR ORIENTATION – THE A AND O FOR SELLING WITHOUT MANY WORDS:

- concentration on what is essential
- pictograms leading to the goal
- simple navigation by means of a simple, intuitive guidance system

PEN BOXES

- flexible solution with adjustable separators
- for different pens or pencils
- numerous products, optimally positioned

FARBE PEINTURE COLOUR

Rayher.

COLOUR STRIPES

- reduced to the bare essentials
- colour fields with colour number
fast finding and simple sorting
- space for your labelling

FAVOURITE COLOURS SHOULD NOT BE HIDDEN

Creativity requires flexibility and space to unfold. The paint is at the focus of attention – not the goods carrier:

- not rigid, but flexible: Be it 1 m, 2 m or 3 m – everything is possible, nothing is cast in stone
- simple and speedy set-up
- pull-out drawers for simple, speedy stocking
- can be hooked in diagonally or straight
- variable inserts for different container sizes
- stable, and can be integrated into every shop system
- can be deployed as a rear wall – as well as a centre space presentation

We don't drive our customers to the wall

Artist's PAINT

Everyone is an artist!
And there is the matching paint;
optimal tool, required aid and ideal
ground for every artist.

The Rayher artist's paint assortment
is tailored to the requirements of
eclectic amateur artists who would
like to experiment and express their
creativity in personal works of art.

For us, quality is of great importance,
and the assortment is optimised in
line with the space. For art without
boundaries; for artistic freedom!

Great effects with the mirror-foil and the glue for foil (item 33 384 00). Suitable for cement, papier-mâché, paper, wood, glass, plastics, wax, etc.

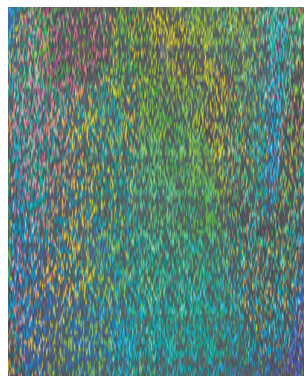

Instruction sheet:
Work with the glue for foil directly from the bottle on the surface. For plain work, spread the glue for foil with a brush or spatula.

The 3D-glue for foil dries transparent, but remains sticky. Now, the foil can be applied.

Important: put the metallic or colored side up! Press well and pull off again, repeat it if necessary. Clean the tool with water and soap.

Exclusive dreamlike deco-tags made of white transparent paper (100g/m²) with integrated hook-eyelet. These tags can be wonderfully, individually and creatively designed by stamping, marking, punching, embossing and decorated with glitter, mirror foil or feathers. As decorative pendants, wind chimes or garlands... these tags are different - differently beautiful!

Spectrum Aqua- Essentials
assorted, tab-blister 12pc

Spectrum AQUA - the artists marker on water-base
For creativity without any limits: to paint or colour stamped motives, to illustrate, to draw or for a lot of mixed media techniques

- the intense coloured ink allows an equal colour application and can be also easily dissolved with water, what makes the marker ideal for aquarelle paintings
- the colours can be easily mixed with each other
- Colour tones are optimally adapted on each other
- odour-neutral and acid-free
- good light-fastness

Each pen has two tips:
- a wide one, soft brush tip for easy colouring
- a fineliner tip for fine details, exact lines, shadings and scriptures

This high quality punches are ideal for all kinds of paper.
Suitable for cardboard up to 200g/qm.

Due to the lever mechanism you can punch easy, clean and without any effort.
The punched pieces are collected in the collecting cup.
Due to the safety cover also ideal for children.
The versatile motifs, formats and sizes can be combined with each other and are suitable for the best occasions of life.

This puncher can be integrated perfectly and space optimized in every POS due to the solid packaging.

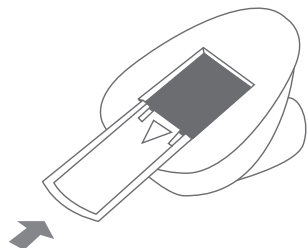

Little effort

Turn over: Accurate positioning, you can see where you are punching.

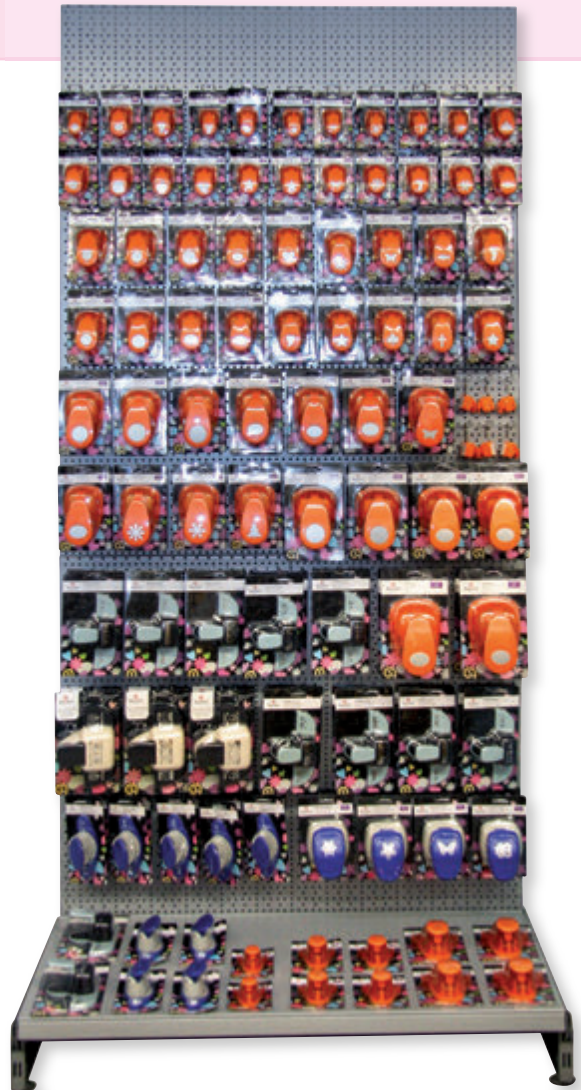

Punching

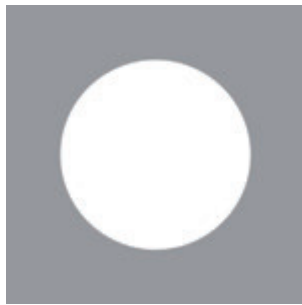

Collecting tray with safety cap. Ideal for crafting with kids.

Tip:
Sharpen the punching mechanism = punch a thin aluminium foil
Lubricate the punching mechanism = punch a wax paper

Silhouetten punch

Very high-quality puncher which can punch and emboss in one operation. Patterns are raised and embossed getting an unusual look. Easy handling due to lever function. The embossing/silhouettes-punchers have inner cut-outs for a beautiful silhouettes look. Ideal for cardboard 180 - 240g/qm

ENVIRONMENTALLY FRIENDLY PRODUCTION

FSC®

The paper used for the RAYHER HOBBY catalogue is produced in compliance with the international FSC standard. The pulp is partly manufactured from certified, exemplary cultivated forests. Careful forestry practice also ensures, among other things, that biological diversity and ecological processes are not disturbed when wood products are removed from the forest.

CO₂- Compensation

Producing the RAYHER HOBBY catalogue all CO₂ emissions produced in the course of printing and processing are determined. By making an equal investment in a climate project according to the Gold Standard, the corresponding CO₂ emissions will be saved in the future and the RAYHER HOBBY catalogue will be CO₂ compensated this way.

Please note that in a few cases, some colours shown in our catalogue may differ from the original ones due to printing reasons.
